

CONNECTIONS BUS PROJECT:

1. PARISH COUNCIL VENUE WITH EQUIPMENT:

If you have a venue with youth club equipment we can provide a team of youth workers to come in and run a weekly open-access youth club. Normally this would run for 1.5 hours with 30 minutes either side to set up and pack down. The cost would around £210 per session depending on how many staff would be needed. Available any day and time.

2. PARISH COUNCIL VENUE WITHOUT EQUIPMENT:

If you have a venue that could be used for a youth club (but no equipment) then we have a transit van packed with equipment that can be rolled into a building and set up. This includes: table tennis, table football, Nintendo Switch, Karaoke, tuckshop, table top games and puzzles, craft activities and cooking equipment (if kitchen available). There are also some outdoor games equipment if there is suitable space. These sessions would normally run for 1.5 hours with 30 minutes each side to allow set-up and pack down. It would be staffed by 3 youth workers (depending on venue). This would be £302 per session. Available for 4pm session Mon-Fri, and for 7pm session Mon, Thurs and Fri.

3. YOUTH BUS:

Full size newly converted double-decker youth bus. Would require access and suitable place to park with space around. This includes: PS5, Nintendo Switch, 4 PCs with internet access, lounge area (with Bluetooth speaker), table top games and puzzles, craft activities, tuck-shop and quiz. There are also some outdoor games equipment if there is suitable space. These sessions would normally run for 2 hours with 15 minutes each side. It would be staffed by 3 youth workers. Cost is £340 per session. Available for 4pm session Tues and Thursday, and 7pm session on Fridays.

These are usually for young people of secondary school age but for a large population we may recommend limiting the age group to two year groups. We would normally require a booking of weekly sessions for at least one term.

All sessions would also be dependent on staff availability or recruitment of new staff.
