

I have started close liaison again with the police after an increase in anti social behaviour in the parish – dope smoking and lighting fires in Wild Cherries; bank holiday fires in the village and a significant increase in nitrous oxide canisters left in both the Recreation Ground and Orchard car park.

Lighting in the Recreation Ground car park again has been asked for to help and I will explore if the technology has changed and something can be done.

Other major projects:

The maps used to plot grass cutting in the parish have now been digitised

Liaison with SCDC over youth grants on Foxgloves

Chasing outstanding issues with Hill and Marleigh, K&M on new streetlights, County highways on several issues, Recreation Ground car park ditch, Wild Cherries legal team, Hub activities
